

学 术 报 告

报告主题: **Analysing angiosperm flowers trapped in amber**

报 告 人: **Simon Beurel 博士**

单 位: 柏林自然历史博物馆

报告时间: **10月10日(周五) 上午10:00**

报告地点: 图书馆三楼报告厅

主 办: 新生代室、青促会、科技处、人教处

报告人简介:

Simon Beurel is a postdoctoral researcher at the Museum für Naturkunde Berlin working on seed plant inclusions in amber, with a focus on angiosperm flowers. He completed his PhD in the same institution and was recently honored with the Pawel-Rammingen award for the best doctoral dissertation of the past two years. He will join the Museum d'Histoire naturelle in Paris at the end of the year as Associate Professor and Manager of the Palaeobotanical Collection.
