

学 术 报 告

报告主题: **Tectonobiogeography and the final closure of the Palaeo-Asian Ocean**

报 告 人: **Guang R. Shi (石光荣) 教授**

报告时间: **12 月 11 日 (周四) 下午 14: 30**

报告地点: **图书馆三楼报告厅**

主 办: **微体室、大数据中心、科技处、人教处**

报告人简介:

Guang R. Shi, a senior professor at the University of Wollongong, Australia, is an internationally well-known geologist and paleontologist specialized in Late Paleozoic brachiopods, stratigraphy and paleobiogeography. He has nearly 40 years research experience, has undertaken geological fieldwork in many countries and has studied marine invertebrate fossils from many major continents. Prof. Shi has an extensive publication record in the areas of geology, stratigraphy and paleontology; he has also published in sedimentology, ichnology (trace fossil studies) and biogeography. He has been awarded Outstanding Young Researcher Award, B Category (Overseas Chinese Scholars) of NSFC and Australian Research Field Leader (Palaeontology) by the *The Australian Research Magazine*.
